

**UNLOCK A NEW REVENUE
STREAM FOR YOUR CHARITY
WITH ITDONATE!**

**WE'LL TURN OLD
COMPUTERS INTO
MUCH NEEDED FUNDS**

**We donate the Residual Value of the
Redundant IT we collect to your Charity**

Accessing the revenue stream ITdonate can provide can be achieved by two methods:

- **ITdonate will take care of the disposal of your own Charity's depreciated IT equipment, or equipment donated directly to the Charity.**
Make contact with your Charity's own IT department to see if there is any requirement for IT Recycling.
- **Ask Supporters of the Charity to invite companies they may know to join the ITdonate service.**
Using the PDF brochure, or webpage, market to the Charity's supporters, who may own, work for, or know a company that requires IT Recycling.

We believe by simply asking companies to switch to the ITdonate service, either as a one-off, or as an ongoing arrangement, the resultant revenue stream can significantly enhance the Charity's fundraising efforts.

ITDonate will deal direct with your IT Donors and provide a first class IT Recycling and Data Destruction Service

This Service is provided FREE OF CHARGE and we donate the Residual Value of the IT Equipment to your Charity on behalf of your IT Donors

Why ITdonate?

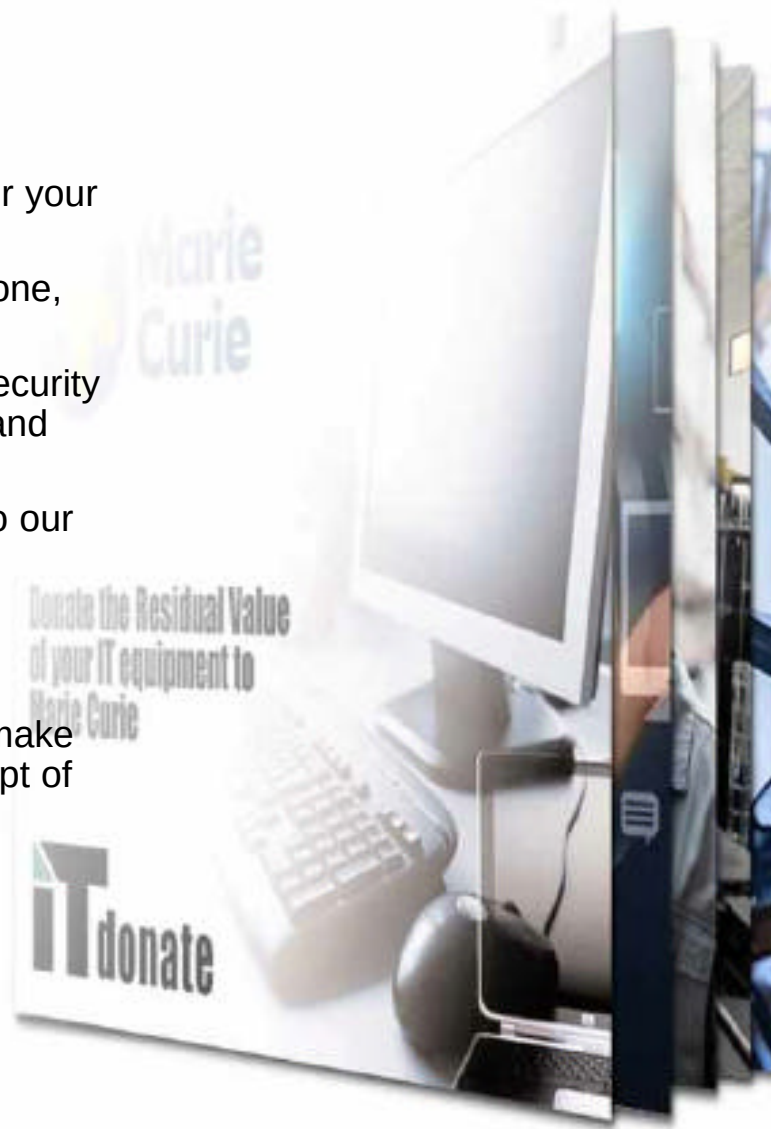

- Free Service
- Clear and transparent disposal/processing
- Secure data disposal + certification
- Zero to landfill
- GDPR compliant, greatly reduced risk of data leaks
- ISO 9001, 14001, and 27001 certified
- Environment Agency approved

ITdonate

How ITdonate Works

- We provide a personalised pdf brochure for your charity to be distributed to your IT Donors.
- The IT Donor contacts us direct via telephone, email or via the personalised webpage.
- We then discuss directly with them their Security needs, types of equipment available, etc. and arrange a collection date.
- Once collected all equipment is logged into our secure site, all data bearing equipment is sanitised, and all suitable equipment is refurbished for resale. All necessary certification is provided to your IT Donor.
- Once the equipment is sold ITdonate will make payment directly to the charity, and a receipt of payment given to your IT Donor.

The company behind ITdonate

The project is run by IT Resource Group Ltd, one of the leading ICT Recycling and Data Destruction Specialists in the UK.
